

BELLUNO/IT GEOTECH

© Arch. Arnelio Giovanni Bortoluzzi

Geotech is a business and commercial building that includes ARPAV (Regional Office for the Environment Prevention and Safeguard) offices in Via Tomea in Belluno. It has a covered area of 1'510 m² and a volume of 16'500 m³. The heat pump of its geothermal heating system is powered by solar panels with an output of 11.5 Kw. The breathing facades, doors and windows are made of aluminum with triple glazing with Low E and Argon gas. The cladding of the facades is made of zinc, copper, titanium and aluminum cast while the extruded cover is made of glass.
